Birkenfeld, 19.02.2018

Dear colleagues,

after many successful years with more than 200 participants from all over the world, we are happy to announce that our Study Semester "Principles of Sustainable Business" will now be available in both the **winter semester** (October - January) and in the **summer semester** (April - July), either as a one-semester or as a two-semester program. We are happy to invite your students to participate in this exciting study program.

In six modules per semester students will explore topics like renewable energy, life cycle analysis and climate change together with the fundamentals of sustainable business management. In addition, we will take up aspects of German language and culture.

Highlights of the program are:

- **All modules in English**
- **Fully credited with 30 ECTS Credit Points per semester**
- **No tuition fees**
- **Live-on campus in Birkenfeld, Germany**
- **Small courses, 1 or 2 semester**
- **Individual mentoring**

Any students who are interested in spending one or two semester abroad in Germany without the usual language barriers are welcome to apply for the next Study Semester starting in October 2018. The application deadline is **1 May 2018**.

We would be grateful if you could advertise this offer at your institution and have included information material in the form of posters and flyers. Should you need additional information, please do not hesitate to contact us.

We are looking forward to welcoming your students at our Environmental Campus.

Kind regards

Julia Mertens  
Study Coordinator
